Your Parenting Journey

What to Expect and Embrace

Hi, !

The path to becoming a foster parent is filled with moments of joy, challenges, and growth. At Kids First, Inc., we're committed to ensuring you have all the support and resources you need for a successful and fulfilling journey.

As you embark on this transformative adventure, let us assure you that you won't be alone. Our dedicated team will be there to walk beside you, providing expert guidance and 24/7 support.

We understand that you might have questions or concerns, and that's completely normal. We're here to address any doubts and equip you with the knowledge and skills to thrive as a foster parent.

Common Questions

1. Many foster parents wonder about the financial investment they'll encounter for licensing. They're often surprised to hear we cover all licensing and compliance costs. There are other household and screening costs that you may encounter, such as purchasing a fire extinguisher, outlet covers, and other safety needs.
2. Other families wonder if fostering is a lifelong commitment. No, it's not. A one-year commitment can make a world of difference! Our ultimate goal is to restore families whenever possible. That means our foster families are not committed to the journey for a lifetime. Their role is to start the healing journey so kids can thrive.

Take the next step and fill out our inquiry card. Let's embrace the journey ahead together!
